EDUCATION

University of Oregon
UX & UI Design Certification
Remote 2020-2021

University of Oregon
B.S. in Human Physiology
GPA 3.8

EXPERIENCE

Humane Society of Central Oregon, UX/UI Designer

Remote/ Vancouver, WA | February 2021-March 2021

- Worked on a 3-week class project where I collaborated with two other UX/UI designers to create an interactive web redesign for a non-profit.
- Developed a storyboard to help visually predict and explore a user's experience with our website. During the redesign, I was responsible for creating wireframes and creating high-fidelity prototypes for mobile and desktop.

US Department of Labor, UX/UI Designer

Remote/ Vancouver, WA | January 2021- February 2021

- Analyzed and redesigned the DOL website to be accessible and user-friendly. As the sole designer of this class project, I was responsible for IA, wireframes, high-fidelity prototype, and usability tests.

Flora, UX/UI Designer

Remote/Vancouver, WA | December 2020-January 2021

- Worked on a 5-week class project where I collaborated with two other UX/UI designers to create a plant care app.
- Conducted user interviews and emailed surveys to better understand users' needs and pain points about plant care. In addition to that, I developed a storyboard, sketched wireframes, created prototypes, and conducted usability tests.

WORK

Artisan Dental Lab, Dental Technician

Portland, Oregon | October 2016- February 2021

- Worked as a senior lab technician where I regularly communicated with dentists to design and fabricate dental prostheses for individual patients. I also trained and worked collaboratively with co-workers to accomplish daily production goals and last-minute rush cases.

University of Oregon, Teaching Assistant

Eugene, Oregon | 2014

- Worked as a teaching assistant where I held office hours to help students gain better understanding of the subject. I also helped grade homework assignments and exam questions.
